Summary of Fire Department: Engineers, 5 ; steamer members, 3 ; Kenrick Hose Carriage, 12 ; Franklin Hose Carriage No. 1, 10 ; Hook and Ladder Truck, 15 ; Total 45.

We have on hand the old Franklin hand tub, which can be used in case of need.

With 500 feet more of hose and a steam pump, in the pumping station, to be used in case of the power pump breaking down, in case of a hard fire, we think our protection from fire will be as complete as it can well be.

The firewards, in fact all the fire department, wish to express their entire satisfaction with the water supply, afforded, by the town system of water works. We have hydrants at all needed points, from which our hose cover the whole compact part of the town. We have thoroughly tested the capacity and force of the hydrant service, and hartily congratulate the town on being so well supplied.

The reservoir is of sufficient capacity and elevation, the pipes of sufficient size, and the hydrants so located as to render any extended conflagration, if not impossible, certainly very improbable.

We think no town or city, has a better water supply, for fire purposes than Franklin.

We recomend that the reservoir on Prospect St., near Fred H. Gerry's and on School St., near John J. Lewis, be discontinued and filled with earth as they are of no use whatever and are dangerous

The undersigned have carefully examined the accounts of the Road Agent for the year ending Feb. 15, 1893, and find them to be correctly cast with proper vouchers corresponding thereto.

GEORGE R. STONE, }
JOHN P. PROCTOR, } Auditors.

It would be almost impossible to give the exact amount of money expended in each department under my charge for the reason that the men might be engaged for a part of a day in repairing bridges or sewers and the rest of the day on the highway. I estimate that I have paid out for repairs of bridges and culverts \$200; for repairs of sewers and extending of sewers in Main and Oak streets, \$500. I consider them in as good condition as they were a year ago and need no especial appropriation for the ensuing year.

I know of no outstanding bills. I have made an effort to settle every account up to February 15, 1893, and I believe that there are none unpaid.

Respectfully submitted,

M. B. NEAL, Agent.

Franklin, N. H. Feb. 15, 1893.

The Road Agent for the previous year, James C. Nowell, having neglected to render a report the following clippings are taken from his books showing the time when the several sums were paid but not when the work was performed. A few bills were rendered showing a large amount for outstanding claims. A part was under the method of order and receipt. No bill or time sheet to refer to.

REPORT OF THE Town and Memorial Hall, BUILDING COMMITTEE.

The committee under direction of the vote by which they were appointed, purchased a lot of the Franklin Falls Co., on Central St., 64 feet front by 135 feet deep. The street has been laid out by the selectmen but has not yet been built. The committee contracted with Danforth & Forrest, of Concord, for the erection of the building according to the plans of W. L. Butterfield, Architect, of Manchester.

The contract price is, \$28,950. This does not include however frescoing, plumbing, heating, lighting or furnishing. Upon this contract the committee have paid to this date, \$19,600.

The appropriation by the town was as follows :
